Skills

Spanish native speaker
Fast Learner
Adaptability
Self motivation
Interpersonal communication
Teamwork

Interests

C# Unity Game Development
Analysis of algorithms
Graph theory
Japanese language

Work History

**2022-09-
Current**

Data Science Intern

MyStockDNA, Remote

- Created data visualization graphics, translating complex data sets into comprehensive visual representations.
- Completing Python for Data Science and Machine learning course to advance skills.
- Collaborated with business partners to understand business objectives.
- Mentored by Senior Data Science Developers, learning multiple systems and efficient development techniques.

**2022-06-
Current**

Full Stack Web Developer Intern

deep_dive, Mexico City, Mexico

- Developed, coded, modified, and debugged 2 web applications of varying degrees of complexity with full independence.
- Learned new emerging technologies such as OpenAI API and React, and took the initiative to offer technical direction and creative solutions.
- Worked with senior developers and designers to develop product landing page using HTML, CSS, and JavaScript.
- Cultivated good working relationships with strategic partners and internal teams.

Education

**2017-09-
Current**

Bachelor of Arts: Computer Science

Boston University - Boston MA

- Dean's List Spring Semester 2018
- Dean's List Spring Semester 2019
- Member of Hack4Impact

**2017-09-
Current**

Study Abroad: Computer Science

Tecnologico de Monterrey TEC - Mexico City, Mexico

- Tutored First Year Computer Science students
- Member of SATI: Students In Internet Technologies

**2018-10 -
2019-01**

Bootcamp: Computer Science

Ironhack - Mexico City, Mexico

- Awarded First Place in MERN Web Application Competition
- Awarded First Place in Javascript Game Development Competition
